

# Accessories for the Neutral Supply Tester

## Neutral Supply Tester Kits:

There are four different units available with our NST kits:

08757	Standard unit	NSW & ACT
10379	Bluetooth unit	NSW & ACT
09070	Standard unit	QLD, VIC & SA
10378	Bluetooth unit	QLD, VIC & SA

Neutral Supply Testers are used by accredited meter installers when placing smart meters on domestic and commercial switchboards. The NST shows a safe or unsafe condition by measuring the voltage and impedance in relation to the connected active, neutral and reference earth.

Earth lead accessories
